Savannah CEO interviewed on Crux Investor podcast

Savannah Resources Plc, the developer of the Barroso Lithium Project in Portugal, a 'Strategic Project' under the European Critical Raw Materials Act and Europe's largest spodumene lithium deposit, is pleased to announce that an interview recorded recently by its Chief Executive Officer, Emanuel Proença with [Crux Investor](#) has now been released. The interview and accompanying summary article can be viewed at <https://www.cruxinvestor.com/posts/europes-strategic-lithium-player-targeting-2027-production>.

In the podcast, Emanuel provides insights into a number of topics including, the progress Savannah is making at the Project and the next key milestones, current lithium market dynamics, development of the European lithium battery value chain, Savannah's strategic partnerships, and the Company's ongoing stakeholder engagement programmes.

Savannah - **Enabling Europe's energy transition.**

Savannah Resources is a mineral resource development company and the sole owner of the Barroso Lithium Project (the 'Project') in northern Portugal. The Project is the largest battery grade spodumene lithium resource outlined to date in Europe and was classified as a 'Strategic Project' by the European Commission under the Critical Raw Materials Act in March 2025.

Through the Project, Savannah will help Portugal to play an important role in providing a long-term, locally sourced, lithium raw material supply for Europe's lithium battery value chain. Once in operation the Project will produce enough lithium (contained in c.190,000tpa of spodumene concentrate) for approximately half a million vehicle battery packs per year and hence make a significant contribution towards the European Commission's Critical Raw Material Act goal of a minimum 10% of European endogenous lithium production from 2030.

Savannah is focused on the responsible development and operation of the Barroso Lithium Project so that its impact on the environment is minimised and the socio-economic benefits that it can bring to all its stakeholders are maximised.

The Company is listed and regulated on the London Stock Exchange's Alternative Investment Market (AIM) and trades under the ticker "SAV".
